

2. Better Me

Your heart is on the line, I'm tired of waiting
Put your best foot forward, and make me a cake
I want that risky romance, you get what you give
Gonna do my thing and figure it out
People like "nah nah nah", I don't hear them
Blah blah blah Shutup! And make me a cake

Cos what goes around, it comes around (feet forward, best foot forward)
I'm nervous but free to find a better me

Life is too short to be scared to be bold (Hey-ah, hey ah)
What if the truth is you don't need to fear (Hey-ah, hey ah)

Mm, it's about time to live in the moment
Throw out your caution, and make me a cake
I've been trying to make sense of my history
Put your best foot forward, to figure it out

And when I sleep, I hear the sound
Of those that are lost, they ain't gone
Cos what goes around, it comes around
I'm nervous but free, to find a better me

Life is too short to be scared to be bold (Hey-ah, hey ah)
What if the truth is you don't need to fear (Hey-ah, hey ah)
